PROJECTS

MERN Blogging Platform

GitHub

- Developed a full-stack blogging platform using MongoDB, Express.js, React.js and Node.js
- Implemented JWT authentication, protected routes and secure user authorization
- Built REST APIs supporting CRUD operations for posts and user management
- Designed responsive frontend components using React and Tailwind CSS

Divine Feminine | Content Platform

Live Demo

- Built a responsive women-centric content platform using React.js and Tailwind CSS
- Developed reusable UI components and dynamic content sections
- Structured layouts to improve readability, navigation and user engagement
- Focused on responsive design, typography and clean UI/UX principles

Agro Mitra (Krishi Ratna) | Agriculture Advisory Platform

Live Demo

- Developed responsive frontend interfaces for agricultural advisory services
- Built accessible layouts focused on usability and information delivery
- Collaborated in team-based development and frontend integration
- Structured content flow for better readability and user experience

CODING PROFILES

- Solved 150+ DSA problems across LeetCode and GeeksforGeeks
- Covered Arrays, Strings, Linked Lists, Trees and Recursion
- Actively preparing DSA for internship and placement opportunities

LEADERSHIP & EXPERIENCE

Frontend Lead | Hackathon Team

- Led frontend implementation within a 3-member project team
- Built UI components and collaborated through GitHub workflows
- Integrated APIs and maintained structured component architecture

LANGUAGES

Hindi (Native) | English (Professional)
